## Unparalleled Winter Showing of New COTTON DRESS GOODS for 1907

Unique in Beauty and Variety

This is the largest display ever shown at this season. In the section where the filmy fabrics hold sway it is easy to forget that Winter is here. These pretty harbingers of gentler seasons suggest the Warm South, Vernal Bloom and Summer Roses. The spaciousness of the Wanamaker Store permits a satisfactory showing of these light materials, so our customers will find examination and selection a pleasure.

While women who are going South will be particularly interested, women who like first choice in choosing Summer dresses, and those who want diaphanous party gowns for the present season, should see this splendid display in its first freshness.

In these days of "the higher education of the eyes," the master designers for foreign and American looms are expected each season to show new ideas in textiles and greater beauty in designs. The inventive Yankee and the skilled workers of St. Gall, Switzerland, have successfully met these demands. The former have produced in the American Printed Cottons, exquisitely lustrous fabrics, new and beautiful patterns and wonderful color-effects; the latter show charming novelties and new beauties in their Swiss muslins. See the slink sheen, the cobwebby fineness, the marvelous color-blendings, the daintiness of trailing vine and delicate flowers of some of these sheer fabrics, and you will admit that new versions of Summer dress cottons surpass the old. Prices are very moderate. Below are a few hints of the variety and price-range:

## Fur and Fur-lined Coats For Men and Women.

The new Wanamaker Fur Store demands the attention of every careful purchaser of furs. In the first place, because of the matter of quality. Wanamaker standards will not permit of anything but carefully-selected skins and perfectly-made garments. Every piece is inspected in the most drastic manner before it is permitted to go into our stocks. Again, there is very large and carefully-selected variety of styles from which to choose; and there is the very important point of price, which on every piece of fur and every fur garment sold by this house is the lowest for which a garment of equal quality and workmanship can be purchased anywhere.

Here are some hints of garments particularly interesting at the present time:

## Sterling Playerpiano

This piano is acknowledged, in the art world, as the greatest achievement in the history of piano construction. It has opened a royal road to music, for there isn't a man or woman, however ignorant of the art of music, who cannot sit down at once and play on it anything written for the piano. It consists of two instruments in one, that is one of our artistic Sterling Upright Grand Pianos with a Sterling Player hidden in it. It is ready to play by hand in the usual way if desired, or, by simply inserting a music roll, it opens up for anyone the world's treasure-house of music, whether you know music or not.

You couldn't buy a better instrument if you paid \$1,000. It is not high-priced, and can be bought on the easiest monthly payments if desired.

We have just finished the largest Christmas business in our history. It is gratifying to feel that the appreciation of our rigid system in selling only reputable pianos grows every year. The Sterling piano always pays the purchaser.

## Second-hand Pianos

During October and November we took in a large number of second-hand pianos in exchange for new Sterlings, but the holiday rush prevented our getting them in condition to sell. Most of these pianos are now ready, and are instruments that we guarantee. Rather than include them in our stock taking we offer them this week at

## Very Large Priced Reductions

Among them are many very notable makes. We have made the prices so low that we know you will be astonished, and terms to suit every pocket-book.

Among these we have some pianos as low as \$125, that will give many years of musical satisfaction.

If you fail to visit our warehouses this week you will miss one of the best opportunities of the year.
